

CSC1011H Project - User Evaluation Questionnaire

Project: SOS Game

Tester Name: Thembekile

Text-based client

Comment on the following statements by ticking the appropriate box:

1. The program is user-friendly, it is easy to learn and use

<input type="checkbox"/>	strongly agree	<input type="checkbox"/>	agree	<input checked="" type="checkbox"/>	feel average	<input type="checkbox"/>	disagree	<input type="checkbox"/>	strongly disagree
--------------------------	-------------------	--------------------------	-------	-------------------------------------	-----------------	--------------------------	----------	--------------------------	----------------------

2. The program works as expected without errors

<input checked="" type="checkbox"/>	strongly agree	<input type="checkbox"/>	agree	<input type="checkbox"/>	feel average	<input type="checkbox"/>	disagree	<input type="checkbox"/>	strongly disagree
-------------------------------------	-------------------	--------------------------	-------	--------------------------	-----------------	--------------------------	----------	--------------------------	----------------------

Additional comments (suggest ways to improve the program):

GUI Prototype

Comment on the following statements by ticking the appropriate box:

1. The user interface is well layed-out, everything is in an appropriate place and easy to access

<input checked="" type="checkbox"/>	strongly agree	<input type="checkbox"/>	agree	<input type="checkbox"/>	feel average	<input type="checkbox"/>	disagree	<input type="checkbox"/>	strongly disagree
-------------------------------------	-------------------	--------------------------	-------	--------------------------	-----------------	--------------------------	----------	--------------------------	----------------------

2. The user interface is pleasant, colour is used well

<input checked="" type="checkbox"/>	strongly agree	<input type="checkbox"/>	agree	<input type="checkbox"/>	feel average	<input type="checkbox"/>	disagree	<input type="checkbox"/>	strongly disagree
-------------------------------------	-------------------	--------------------------	-------	--------------------------	-----------------	--------------------------	----------	--------------------------	----------------------

Additional comments (suggest ways to improve the user interface):

Game instructions / how to play
the game should be added to
improve the game.
